Hello Katherine,

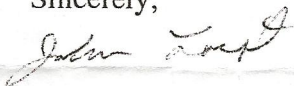

We were very pleased with the construction work done by Kling Construction. The repair work done to bathroom, kitchen and closet in both condos was professionally done and one would never know that there had been a problem with mold, and water damage after all the work was completed.

Also want to thank Corey for his managing of the whole project since so many people were involved - tenants, owners, Alliance Remedial Contractors, Testing, Kling Construction people, Property managing people, Condo Homeowners Association, my daughter back in New York, my wife, myself plus others,

Most important was that all the work was done between January 15th and February 5th. A project of this magnitude could have taken 3 months. We highly recommend Corey Kling because of his ability to work with people.

Also Katherine, we want to thank you and William Rodriguez for your effort in this project. It took complete teamwork to get this done in a timely manner so that little impact was on the tenants.

Sincerely,

John, Yvonne and Julie Loest
