To Whom It May Concern:

Dear Kara,

I recently had work done by Kling Family Construction, Fire and Water Damage specialists. This job included water damage to 2 units, & work to be done by mold and asbestos specialists, dry wall people, handy man repair people and painters, about 30 people were involved. Corey Kling Owner of Kling Family Construction, was the lead person and the contact person in charge of this job. This is a letter in the highest regard to the incredible job done by Corey and his employees. A stressful situation was done flawlessly, and Corey gave meticulous care to make sure that I was aware of every step of every process, and I was never left in the dark, nor did I ever feel the need to call and ask when or what, I was advised on a daily basis. His employees were courteous, punctual, effecient and clean. The job was a 3 week work quote, and was finished in complete execution 3 days early. I am a person who works 6 days a week. I never missed one hour of work, and I had 100% trust in Corey and his employees that my house and belongings would be safe. The job went perfect with no flaws, and my house looked better than before when the job was completed.

With all that said, I would call Corey of Kling Family Contruction, 805-501-0080, if the need ever arose again, and refer him highly to anyone else without a second thought. He is a trustworthy, responsible, respectful person, and this job was executed flawlessly.

Thank you.

Nancy Flores
