Dear Donna Blazewich:

This letter is to inform State Farm that we highly recommend Corey Kling Construction of Santa Monica, California (CA) for services that span the range of emergency repair services to general contracting. After sustaining major wind damage to the roof of our home and anticipating inclement weather, we contacted our State Farm agent, Roger Douglas and Associates of Pasadena, CA for assistance in obtaining emergency services. Corey Kling Construction was one of the options recommended that we pursued, and are pleased that we all connected very well. Mr. Kling handled our emergency repairs promptly and worked cooperatively with us with respect to our limited knowledge of construction and renovation projects.

We have and continue to feel sufficiently informed and in collaboration throughout the process. In addition, Mr. Kling provides his expertise in helping us construct renovations to our home that exceeds the scope of the claims repair work. Oftentimes, these discussions require Mr. Kling and his associates to be physically present. It is during these appointments that Mr. Kling displays a level of professionalism that further ensures that we have a competent contractor working in our best interest.asawer44445t66/.66

Sincerely,

Travis and Andreia Gibbs
